

# Tie-Dye 101: Scrunch Ombre Scarf

**Tie-dye goes ombre on this boho-blue scrunch scarf! Watch our video for the surprisingly simple technique.**

## **SUPPLY LIST:**

- White scarf
- Blue dye
- Plastic dropcloth
- Protective gloves
- Paper towels
- Cooling rack

## **TIPS & TRICKS:**

- **Ombre Away:** For the ombre effect, start out with full-strength dye and dilute it a few times during the process.
- **Snap, Crackle, Pop:** Love the cool-blue crackle look? Scrunch tightly at the ends of the scarf and more loosely as you work your way up.
- **Wet-n-Wild:** Work with a damp scarf to help the dye spread more easily. Dye applied to dry fabric won't blend as well to give a true ombre effect.
