

# Tie-Dye 101: Tips & Tricks

Join the tie-dye revolution! This groovy freestyle art is easier than ever to do at home—and we've got some tips to get you started.

## Color Combination Tips:

*To avoid a muddy brown color, don't put these colors together:*

- Orange & green
- Green & purple
- Purple & orange

## TIPS & TRICKS:

- **Out With the Wash:** Wash items before you dye them. You'll want the fabric to be free of any residue that could interfere with the color. Clean fibers equals vibrant colors!
- **Cover the Territory:** Art can be messy, and that goes double for tie-dye. Prep your work surface with a plastic covering, and suit up in plastic gloves and an apron.
- **Read Into It:** Don't dive in without carefully reading the instructions on the dye first. Technique and prep can vary from brand to brand.
