# Family

## LET'S GET *Together*

A little paint and a pop of pink—that's all it takes to turn one simple word into the star of this warm and welcoming space. You'll find the "family" word sign—and others like it—in black (we painted ours cream) in the Home Accents Department.

## HOME *Sweet* HOME

We're shining the light on a hoot of a DIY project: a fabric-embellished lampshade. We simply plucked the cute-as-can-be lamp right off the shelf and dressed up the shade with rosette and ribbon trim from the Papercrafting Department. Whooo's crafty now?

## TREE *Time*

Let your creativity take root on a piece of made-to-display wall décor. Write the names of family members on kraft tags (Papercrafting Department), and glue them to the tree. Then just add dainty fabric flowers and let the darling effect speak for itself.
