HELLO, YELLOW

Wrap your little angel's head in a halo of sunshine. Just layer this yellow, gray and white chevron beauty with a feathery friend, and you've got a match made in heaven.

DIVA DARLING

With all that eating, sleeping and patty-caking, a girl on the go can quickly turn into one tucked-out tyke. But here's a pretty pick-me-up: Clip flower puffs to a black and pink headband pair. For the layered look, stack a sequined headband on top of a crocheted one—clips from the flowers will keep them together.

All these darling onesies and bloomers are available in the Wearables Department.

IT TAKES A VILLAGE

No bow should have to go it alone—so why not whip up a batch of breathtaking headbands? They're perfect for mixing and matching to fit any style, any day! All of our tot-friendly flowers and bows come with clips on the back, so they're easy to pair with our ready-made headbands— we've got everything from stripey soft knit (top) to lace and sequined (center).

THE TEAL THING

What's black and white and snugly all over? Your beautiful bow-bedecked baby! We started with a sparkly headband, added a pop of feel-good teal with a satin flower puff, and finished with some spotty-dotty polkas on a mini bow.

BOW TEAM!

That bow-toting munchkin of yours makes a pretty marvelous mascot. Iron on our football appliqué (Wearables Dept.), dress her up in your team's colors, and she'll have team spirit soaring in no time! For this look, pair a classic orange bow with a gray feather puff, and clip them both onto an elastic headband.

EVERYTHING NICE

This headpiece is a top-notch tribute to all the things little girls are made of. And in the palest of pinks, it brings a sprinkling of sugar and spice without going too frilly. To top it off, we clipped the flower (feather included) to a lovely-in-lace headband.

FEATHER WEATHER

From her pinchable cheeks to her ticklish toes, she's nothing short of pint-sized perfection—and this feather and tulle duo is almost as sweet as she is. For a topper that's twice as nice, mix and match colors and textures to your heart's desire.

RED, WHITE & BLUE-TIFUL

Whether you're off to see fireworks or just feeling the stars and stripes spirit, this patriotic pair-up is a must. Clip a navy blue bow and red ostrich feather puff to a white headband, and watch her light up the sky!
