3. Trace jar lid on back of coordinating patterned paper.

4. Cut circle with scissors. Place metal lid over jar opening and layer circular paper over it. Twist ring over jar and tighten.

5. Using Fiskars® tag maker tool, punch two tag shapes using different coordinating patterned papers.

6. Punch holes and set eyelet into each tag hole.

7. In word-processing software, typeset recipe directions to fit a 1.5" x 2" rectangle block. Print on kraft-colored cardstock and trim closely. Back with red cardstock. Adhere recipe directions block on one tag. With baker's twine, wrap both tags around jar lid and tie a pretty bow.
