

# Christmas Tree Basics: Fillers & Ribbon

**Want to trim a designer-style Christmas tree at home? This easy-to-follow tutorial will help you get your holiday show on the road. On the agenda: ribbon and filler ornaments.**

## TIPS & TRICKS:

- **First Things:** Ribbon should be added after the lights, but before the ornaments—you want to be able to drape, loop and bunch without knocking decorations off the tree.
- **Mix Fix:** Use a mixture of sheer and solid ribbon to get plenty of coverage without overwhelming your design.
- **Think Big:** Add the largest ornaments first. You can use them to fill in any gaps in the foliage.
