## Best Face Forward

Glamorous DIY décor that's trendy and timeless? Why, that's music to our ears. And so is the nothing-to-it approach to creating this conversation piece: découpage a mannequin head with torn pieces of patterned paper, and embellish with doodads of your choice.

# FLEA MARKET FRENZY!

## « Trinket Time

Fabric flowers, faux pearls and scraps of ribbon turn mini paper bags into gift-worthy creations. But these sweet treat bags are almost too pretty to give away. So we won't blame you if you make a few extras to place around the house . . .

## Stunning » Statement

It's a little bit glam. It's a little bit rock 'n' roll (hello, spikes). To make a stunner like ours, cut your desired necklace shape out of felt and use heavy-duty jewelry glue to adhere the sparklies and spikes of your choice to it. Then attach the piece to a pearl chain with jump rings.

## Clutch Play

When you need to touch-up that basic clutch (we carry several ready-to-embellish styles), look no further than our well-stocked Wearables Department. **Top:** velvet trim, beaded embellishment, black crystal;

**Middle:** feather and gem embellishment; **Bottom:** velvet trim, rhinestone buckle

## » It's a Sparkling World

Glue a sparkly collection of pretties—think pearls, faux diamonds and faceted gems—to the continents of a metal globe, and you'll be the glitziest jetsetter in all the land. *Tip: Use tweezers to place small rhinestones in any uncovered areas.*

## Glass Act

A Mason jar becomes a luminary objet d'art when it's filled with baubles and brooches, outfitted with a Mason jar lamp kit (Home Décor Department) and topped with a feathered shade. Talk about a lamp revamp!

## Jingle, Jangle

Made-to-embellish bracelet blanks: check. Jewels and gemstones galore: check. A flair for the dramatic: check. Now start gluing the baubles to the bracelet blanks, and take your gem-spired creations out on the town!
