NAIL PARTY!

Gemstones, foil, glitter and more—we call that serious hand glam! And thanks to our terrific nail art kits, it's coming to a slumber party near you!

TIPS ON TREND

Style is an art when it comes to our girly nail-design kits. And your favorite tween princess is the fashion artiste. Each packed-with-stuff kit has a theme—we're talking bling, foil, chalkboard and more. *Psst: Big girls can join the fun too!*

VELVET DREAM

Grab our Velvet Nail Art Kit for this quick twist. Paint the nail, apply velvet powder and bling out your design. Everything you need is included!

CHALK TALK

The Chalkboard Nail Art Kit comes with black polish, clear polish and three chalk-inspired nail markers. Just paint and draw!

YOU'RE A GEM

Use Bling Nail Art Pens for this look. Apply deep pink polish to the entire nail, and when it's dry, apply the light pink polish as an accent. While that polish is still wet, use the included gem pen to add the jewel.

FOILED AGAIN

Our Foil Nail Art Kit (base coat, glue and burnishing tool included) is the key to this edgy, easy-to-do design.

POLKA PARADISE

Want to try a sweet 'n' subtle take on the bling scene? We thought dots!

1. Apply light pink polish—one or two coats should do it. Let dry completely.
2. Apply a thin layer of gold polish—the idea is to let a little of the pink show through. Let dry completely.
3. Use the dark pink nail pen to apply the polka dots. Let dry completely.
4. Apply another small dot of polish (this will serve as adhesive for the gem), and then use the gem pen to apply the bling.

BLING TRUE

Some girls just gotta sparkle. And that's why our all-in-one bling kits are a dream come true! Each polish in the kit comes with a traditional brush, a fine-tipped nail pen, and a selection of gorgeous gemstones. **The best part:** *The included gem pen makes it a cinch to apply the bling.*
