

PLEAT IT.
TRIM IT.
RUFFLE IT.
FRAME IT.

However you use it, add
a hint of sparkle to any
room with our gorgeously
embellished floral ribbon.

refined ribbons

{ CREATIVE INSPIRATIONS *free* FROM HOBBY LOBBY. }

DRAPE » ESCAPE

How do you tailor off-the-shelf curtain panels to fit your current décor? It's ribbon to the rescue! Just pull out the wires, layer as desired, and stitch into place.

« SHADY LADY

We used two lengths of creamy, unembellished ribbon (sumptuously hand-gathered after removing the wire and hot glued) to go around the top and bottom portions of this formerly no-frills lampshade. Then we used a stunning beaded version to accent the middle.

» HAUTE COZY

Turn ordinary pillow covers into posh soft spots by stitching on a glitzy mix of embellished ribbons. Trim them, twist them or twirl them as desired—and stitch!

Tip: Don't want to sew? Many of the projects shown here can be made using fabric glue. Easy-peasy!

CLASSIC CHIC

For put-together style that's both bold and refined, we paired rich colors with a touch of sparkle (in all the right places). To get this look, add a luxurious jeweled ribbon bow to a statement wreath, sew it onto throw pillows, and display it in ornamented frames.

EDGE EFFECT

For a look like this, use only the center portion of a beautifully beaded ribbon—just remove with a seam ripper. Then hand sew or glue to a ready-to-go pillow cover (Fabric Department).

≧ IN FRAME

Glam up a stately frame using our richly embellished ribbon. Just place behind the glass for display.

≧ FAB FRILLS

Knick-knackery: ribbon-embellished frame, ribbon-covered foam spheres, ribbon table runner. *Tip: For the table runner, we used fusible iron-on to adhere three strands of ribbon together.*

SILVER SPLENDOR

Glam can go modern too, and the proof is this contemporary spot. We kept to silver, and used only the center portions of our high-end floral ribbons (just cut off the outer edges) to preserve some sleekness. And now it's unfussy ooh-la-la from the lamps to the table to the floor.

GATHER ROUND

To gather wired ribbon, gently tug the wire with one hand while gently sliding the fabric down with the other. You can gather one side of the ribbon or both sides, depending on the desired look.

TRÈS TABLE

Try a hint of shimmer in a mad-about-mod space by trimming away the sides of embellished wired-edge ribbon.

1. Pleat ribbon (with wire removed) and attach to frame using a staple gun. Then staple on embellished portion of ribbon—the staples blend right in!
2. Stitch ultra-glam ribbon down sides of an off-the-shelf table runner.
3. Spray paint two antlers, glue together, and wrap ribbon around middle.
