# Groom a Room

Want a room that's groomed with a natural flair? Make it happen with natural jute! From wrapped-up knickknacks to beautifully embellished furniture, we've got a bevy of inspiring projects . . . all created with our earthy jute twine. And what's the best part of these organically-inspired designs? Each project is easy, inexpensive and absolutely beautiful!

## Hang On ↗

Here's a metal coat rack that's now showing its softer side, thanks to our versatile jute twine. We used two thicknesses for interest. For the look shown, wrap section by section, using hot glue to secure the twine as you work. Hang your hat on that!

## Precious Pennant

Our twine 'twas divine on this cute little pennant. That's right... it's crocheted! We combined jute and bleached twine for a two-toned look and added a heart to finish off the design. Visit [hobbylobby.com](http://hobbylobby.com) for simple step-by-step instructions.

## Pillow Power

A twine design on a fluffy throw pillow? You bet! This piece is made from simple muslin. We penciled in the design before embroidering with 3-ply jute, as shown.

**Tip:** You'll need a tapestry needle for this project, along with jewelry pliers to help you pull the needle through the fabric.

## Lovely Lamp

This hand-me-down lamp features rows and rows of our versatile jute twine. We started with the base, wrapping tightly with multiple sizes of twine secured with hot glue. And we finished with the shade (see cover), using jute and twine to create a series of preppy-meets-organic stripes.

## Tree Glee →

Leaf the artwork to jute! This whimsical yet contemporary display shows the artsy side of our earthy jute twines. We painted a trio of canvases to coordinate with the wall before penciling in our branched-out designs. Then, we carefully filled in the design with twine, securing with hot glue as we worked.

## ← Just Floor It
