in with the new...

We've always had you covered when it comes to big, bold chipboard letters. But now, we're doing even more to help you bring your projects to life—with words and shapes! And here's the best part: You can embellish them with help from our specially designed Cricut™ cartridge.

» **bow bestow** Let your inner diva have a heyday with a custom-made hair bow display! First, transform a chipboard crown with acrylic paint, animal print paper, self-adhesive gemstones and fancy trim. Then adhere two equal lengths of wide coordinating ribbon to the back. Now, that shapes up to cute, functional décor!

Design Tips:

- **Don't be afraid to layer embellishments.** Mix textures and finishes for interest, keeping to a common color scheme.
- **Paint the chipboard** (front, sides and back) before you apply paper and embellishments. It gives a finished appearance to your design.
- **Ink the edges of your paper cutout.** It's a great way to add interest and dimension to your project.

» **in frame**

Take your chipboard upscale with a simple black frame and some elegant flocked paper. Mount the finished letter on textured cardstock (use 3-D adhesive for striking dimension). Then add a personal touch with a handwritten inscription.
