ARTSY GLASS PENDANTS

No need to spend a fortune on beautiful jewelry! Using our gorgeous glass pendants and a little creativity, you can whip up these eye-popping pieces in no time.

We simply wrapped two colors of beading wire around this glass pendant to add interest and texture, then continued the look by twisting the wire together to make the necklace strand. An ornate toggle clasp turns this necklace into a little piece of art!

Tiger-like stripes on this unique teardrop pendant give this necklace a trendy appeal, while satin ribbon and a beautiful gold toggle clasp keep it decidedly elegant...the perfect accessory for that little cocktail dress.

Did someone say pizzazz? Chunky yellow glass beads, a quirky-spotted pendant and loads of sparkling wire and findings are the perfect combo to create this whimsical, yet artsy necklace.

With its sheer and delicate ribbons, heart-shaped glass pendant and beautiful hues of purple, this necklace truly inspires romance. We even added a little visual interest by simply wrapping jewelry wire around both ends of the beads and toggle clasp.

Cool shades of aqua, crystal and golden bronze exude a Mediterranean flair in this easy-to-create piece. Simply slide glass pendant and beads onto leather lacing and finish with a silver toggle clasp.

An even simpler technique using leather lacing is these two fabulous pieces. Their simplicity is in the glass pendant style we chose which allows us to easily change out the pendants at a moment's notice. And here's a great tip when it comes to using leather lacing. Since the lacing was too wide for the hole in our top pendant, we simply used scissors and carefully spliced the leather lacing in half, creating a more narrow width that was just perfect for the pendant.

Art anyone? The gorgeous swirls and shimmering shades of green and blue give this glass pendant a true sense of a little piece of art. Sure to turn heads wherever you go, only you will know it took no time to design and only minimal supplies.
