### shadowbox

Create one or several keepsake shadowboxes to display your favorite photos. Black and white pictures really pop off the layered hot pink patterns and contrasting black accents. Try adding your favorite quotes or descriptive words with chipboard letters, stickers and archival markers.

Black, white and girlie hot pink are trendy and happy colors that are always fun to use in design. They give every creative project a splash of hot style!

## file folders

To make a decorative file folder, simply adhere patterned papers to a regular folder file using double sided adhesive. Next wrap several coordinating ribbons in several widths for a decorative trim. Use adhesive fabric tabs to label your file for an added touch. Don't forget the glittering dangle heart for your sweet embellishment. It's also handy to create matching pull out tabs to keep important at-aglance information. These can be created by cutting down office files, including the tabs, and covering with patterned papers.
