FOR SOME OF  
OUR FAVORITE  
PROJECT  
IDEAS!

We've planted a gorgeous collection of *burlap flowers*, perfect for trendy home décor and just-for-fun floral arrangements.

*burlap flowers*

it's blooming burlap!

*make an  
entrance*

Let your home say hello with a burlap entrance that greets your guests the moment they step up to the front door. Think elegant, not formal—and trust our pretty burlap blooms to pull it off. **Door hangings:** Chevron-striped burlap ribbon with burlap flowers (stems clipped) hot-glued in a cluster at one end.

*make a  
statement!*

Burlap has to be brown? Don't tell that to our colorful burlap flowers. They come in a vibrant (and versatile) mix of hues, made to grace the happiest, friendliest spaces in your home. We're talking sunshine yellow, robin's egg blue and more—with all the rustic charm of traditional burlap.

*bottle in bloom* If you think real flowers are best left in the great outdoors, toss your garden shears and try this: Find a pretty vase—or in this case, a bottle—and tuck in a few whimsical burlap blooms. **Bottles:** Home Accents Department.

*sun shine* Clip the stems from our cuter-than-the-real-thing sunflowers. Then cluster them on a frame, a basket—or a sunny, striped pillow. **Chevron pillow cover:** Sold in the Fabric Department.

*the rundown* Put the effort into the meal, and leave the table décor to our sweet burlap roses. There's no sewing to do here—just whip out the glue gun and go to town. **Runner-width burlap:** Sold by the roll in the Floral Department.

# *make it natural*

Love the soothing, earthy hues in this unconventional fabric? We carry plenty of stems that stick to a classic color scheme—think brown, bleached and touches of black.

## *garden variety*

Where can you plant our gorgeous burlap flowers? Here are some ideas to grow on. **(1)** Glue a big bloom—we added the checkered leaves cut from ribbon—to a basic lined basket. **(2)** Add interest to a basic lampshade. **(3)** Glue clusters of flowers to the corner of a photo or bulletin board frame. **(4)** Tie together a mini burlap bouquet, and tuck it anywhere that needs a quick pick-me-up.
