wonderfully  
elegant.*

HERE ARE  
SOME IDEAS TO

*get you inspired*

TO CRAFT WITH TULLE

forever in tulle

{ CREATIVE INSPIRATIONS *free* FROM HOBBY LOBBY® }

« *Be-Tulle'd* Tulle is head-turning on this beautiful brooch. It's perfect for your walk down the aisle! Cut petals from lace and tulle, and layer them to form a flower. Then, add a diamond-like pendant and a circle of rhinestone trim. **Tip:** To make this piece suitable for hair or bodice, glue it onto an alligator clip, available in the Jewelry Department.

### » *Daisy Chain*

This playful daisy garland makes the perfect post-ceremony getaway décor, and we love that it comes ready to go! For girly appeal that ties into your color scheme, knot lengths of tulle to the ribbon as shown.

» *Star Car* Deck that love bug with a happy poof of pink! Prep a basic puffy bow—loops of tulle, stacked together and tied tightly in the middle. Now, fluff it out and hit the road! We love this look paired with our simple daisy chain garlands.

## *I See Red*

*You're head over heels in love with tulle for its romance, but now you can love it for its drama too. Go with can't-miss-it red for maximum effect, and pair it with black to play up your bold, contemporary sense of style.*

### 1. *Head Start*

Trade your tiara for a head full of tulle! Cut a length of lace (available in the Fabric Department). Then fold in the sides to taper, and fold under the ends to create casings. Then add elastic cording, houndstooth ribbon, and a handmade tulle-and-pearl spray to complete.

### 2. *Shades of Tulle*

Shed some light on your love of all things tulle with a chic checkered lampshade. Add the vertical pieces first, gluing the ends to the inside of the shade. Then, weave through a coordinating color.

### 3. *Branching Out*

Here's an easy (but striking) look for a reception table or an empty corner. Place dark trimmed bamboo into a tall cylindrical vase. Then, knot small strips of red and white tulle to the branches.

### 4. *Tulle'd You So*

Let your wedding guests leave you words of advice! To create a snug place to tuck their comments, wrap tulle around black matte board, and then place the board in a simple black frame.

## *Think Pink*

If you're gonna go girly, go all out with tulle! Think deep pink, dotted with a bevy of fabulous sparklies. A buckle here...a brooch there...and sprinkles of shimmery gemstones everywhere you look. And you'll have a fabulous look for everything from the engagement party to the rehearsal dinner to the walk down the aisle.

« *Heat is On* Turn basic tulle into spectacular fashion with a sprinkling of heat-set gemstones. You'll find these easy to apply sparkles in the Wearables Department. Choose the perfect color, and apply according to the manufacturer's instructions. Now, that's hot!

» *Tulle Jewel* Pearls, jewels, and tulle—the perfect wedding day accessories! For this look, layer and bunch circles of tulle to resemble a flower. Stitch the stack at the center, and then sew it onto the strand. Now sew or glue on a dazzling pearl and rhinestone bauble.

### « *A Good Catch*

This tulle bouquet is almost too pretty to throw! To make it, sandwich organza between two layers of tulle—spray adhesive should secure it. When the fabric is dry, cut it into petals and carefully singe the edges with a candle. Then wire the petals together to resemble flowers (complete with pearl stamens), and arrange in a pearl-embellished bouquet holder.
