hip...knit...hooray!

Here's to a hodgepodge of trendy caps and scarves. They're colorful. They're cute. And they're absolutely custom! Make your own with the yarn of your choice and an easy-to-use knitting loom. Simply follow the instructions on the package.

✧ **tassel tickle** How do you top off your cute hand-knitted hat? A tassel of course! Make one or two or five—you'll need scrap cardboard, a pair of sharp scissors, and some coordinating yarn. Look to our instructional books (sold near the looms) to show you exactly how it's done!

fit to knit It's time to throw your hat in that fuzzy-wuzzy ring. That's right, you can knit! Our handy looms make it easy to create your very own yarn-yearning accessories. No knitting experience (or knitting needles) required. Simply follow the manufacturer's instructions and go to town! We've got the supplies and the resources to get you on your way.

snow day It's a snowy day...but thanks to your new loom you've got time to play. You'll be warm and toasty when you're decked out in your very own one-of-a-kind designs. Tip: Play with a mixture of patterns and shapes to bring interest and texture to your cold weather couture. Have fun!

color craze You have some bright ideas—it's true! And now you know how to knit them! Pick a pack of colorful yarns and make your mark on a passel of posh little hats! Go for a standard shape or go bananas with a bevy of simple variations on the basic pattern. We've got books full of tips, techniques and inspiration to help you along.

» **short supply** Don't be alarmed, it's just a little yarn. And you've got it under control with a handy-dandy knitting loom. Simply gather your supplies (it's a really short list). Then, follow the manufacturer's instructions to wrap. . . loop. . . and love it. Embrace your knit bliss, baby!

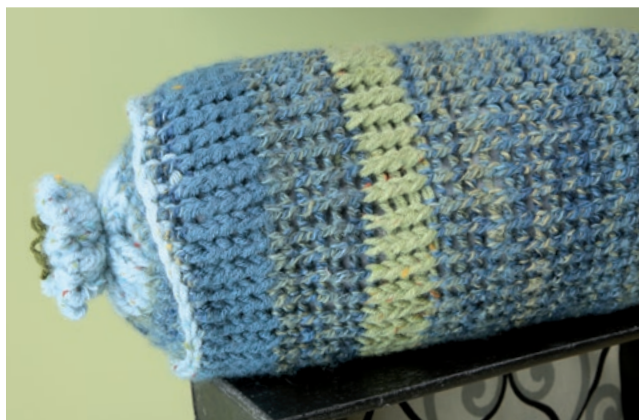

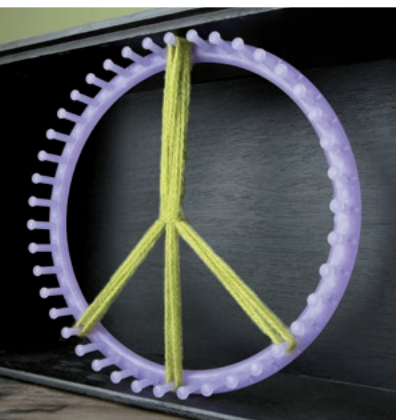

» **a little bloom** A little flower power gave a lively lift to this sweet green hat. We created the bloom with the help of a "hana-ami" loom (also available in this Department), used according to the manufacturer's instructions. It was super-easy, and it's just so cute!

carried away Who says this backpack is a big job? It came together in a snap with a knitting loom and a basic hat pattern. We lengthened the design to create the satchel-style sack. And the straps... the drawstring... the little bow accent? They're all knitted too! So cute!

≈ **bolster up** Got a passion for pillows? Then, we've got a project for you! And... you guessed it... we did it on a loom! The easy design is a variation of a basic hat pattern, knitted with self-striping sock yarn. It's stuffed with a basic bolster pillow, available in the Sewing Department.
