

# HOORAY FOR *Hana-Ami*™!

YOU'VE GOT THE LOOM...NOW IT'S TIME TO BLOOM!  
THESE VINTAGE-STYLE FLOWERS ARE ALL THE RAGE, SO GRAB  
SOME COLORFUL YARN, AND A HANA-AMI™ LOOM AND GET CRAFTING!

⚡ **lace love** Another way to Hana-Ami™ your household décor? How about a little lace? We put crocheted lace (darned with yarn) on the loom to create these vintage-style floral embellishments. So sweet!

⚡ **fray day** Don't limit your loom to your favorite yarn. Experiment with textures, weights... and materials. For example, we used frayed strips of fabric for these flowers. They bring shabby appeal to a trendy burlap pillow.

⚡ **twine divine** Cotton twine is just divine when you turn it into a pretty little flower. Try it instead of yarn to create a simple embellishment for clothing, accessories... or a bit of bird-worthy home décor.

⚡ **just jute** Stiff jute twine was an unexpected—but totally chic—addition to this unadorned clutch (available in the Wearables Department). Loom a similar look just as you would loom yarn, according to the manufacturer's directions.

loom to bloom!

{CREATIVE INSPIRATIONS free FROM HOBBY LOBBY®}

⚡ **curious cascade** This look will have you yearning for yarn-as-art! We used three sizes of basic Hana-Ami™ flowers (see manufacturer's detailed instructions) to get the look of this quirky hanging bouquet. And we hot-glued the blooms to yarn-wrapped floral wire before suspending them from the frame.

⚡ **neck wear** A crocheted cord is the perfect perch for a collection of colorful Hana-Ami™ blooms. We used a double-layered flower technique—it's two looms on the base instead of one—to give the petals a multi-layered pop. Then, we stitched the flowers into place.

⚡ **twin pins** Hair flair with a vintage twist? Make it happen in a flash with a Hana-Ami™ loom and a pair of embellishable hair pins (available in the Jewelry Department). We simply hot-glued these basic blooms to the pads.

⚡ **band bouquet**

This piece is a study in casually dramatic style! The look features double-layered flowers and square flowers, backed with felt and secured to a metal headband (available in the Jewelry Department) with hot glue.

⚡ **cuppa cute** Where's best to rest a cozy mug of tea? A retro-style coaster! Seven flowers, joined using a darning needle, make up this fully functional piece. Each of the blooms features four fluffy layers—simply wind the yarn around the loom four times for a similar look.

⚡ **chain of command** Extra bulky yarn made fuzzy-wuzzy work of this flowery neckwear. The scarf was created using a basic flower pattern. The only difference? We looped one flower to the next while the bloom was still on the loom! It's an easy, no-stitch chain.
