in supply Send a messy desk packing with tin pails turned pencil cups. They're wide enough to tame even the chunkiest supplies.

picks & plumage

Tuck our handy butterfly picks into a whimsical flower arrangement and set them off with our coordinating glass gems.

basket case

Turn the tables on a handy divided basket! On its side, it makes a fabulous organizational hub for desk supplies.

« garland gazing

Instead of letting it dangle, arrange a purple pearl garland on a brightly painted wall as dimensional art. We paired ours with a dainty beaded butterfly.

wings & things

Picture this: A gorgeous purple butterfly, casually clipped to a flower-topped photo stand. Instant sculptural art!

fly by Oh, to be a butterfly on the wall. Make this larger than life winged wonder (it's metal) part of your perfectly purple décor.

organization creation

Fix up fabric-lined baskets with simple labels, and then fill them to the brim! Perfect for under the bed storage!
