POTHOLDERS...A CLASSIC LOOMING PROJECT!

So Sunny (1) Mellow yellow gets mixed with white for this sweet and sunny look.

Gray Day (2) A little more modern... with grays, blues and a hint of mustard yellow.

Chic Sherbet (3) It's fun in the sun with a tropical twist! This look is all play with orange, yellow, blue and cool greens.

Precious Primaries (4) Basic bright is right! Especially when it comes to this colorful look—all primary colors!

Green Thing (5) This look is solidly sweet with a single color scheme and contrasting border. Talk about going green!

Get a Handle

How do you get a handle on a cute & loopy jump rope? All you do is fold over ends and tie a knot! There's absolutely no sewing (or gluing) required!

Knotty and Nice!

Use a combination of weaving and simple knots to make kitschy home décor and sweet little wearables...all from our versatile craft loops. The possibilities are endless...just look at these adorable ideas!

Jump In Here's a project that will make you jump for joy! This color-crazed jump rope was made using an easy finger weaving technique. No loom or tools required! Simply follow the manufacturer's directions to wrap, twist, knot and hop!

Purse Strings You'll want to be left holding this chic little bag! It's made from three basic woven squares (potholder size) made according to the manufacturer's directions. The sides and flap were quickly stitched together with a weaving needle (available in the Needlework Department). We added a pair of heavy-duty snaps for function, along with a rolled rosette just for fun!

Belt it Out What's not to love about this artfully knotted belt. It's the perfect project for when you don't want to weave! It features oodles of our colorful cotton loops, knotted in the center and joined with split rings (available in the Jewelry Department).

Sweet Strap You've got to love a look that's all about "knot and go!" Get to the long and short of this carryall project with a purse strap that is simply tied to size! Just slipknot together a series of our colorful loops until you've reached the desired strap length.

← *Join the Band*

Hair, there and everywhere! You'll love these loops as easy-to-create headgear. And you won't need to break out the loom. Simply finger-weave to the desired length. Then, close with a coordinating button.

↑ *Button Up* It's fun to fasten on affordable style with a one-of-a-kind collection of loopy hair bands! And what's our favorite way to fasten? A button, of course! Secure to the band with a needle and thread, and let a loop function as the buttonhole. So easy!

← *Collar Couture* There's no loom needed for this chic braided neckwear and headband (shown left). The entire look is created using an easy finger weaving technique. The rosettes were simply rolled into the shape shown and stitched into place. Unique and crafty.

Ornamental? Oh yeah!

(1) Loops to love... loops to layer... loops to wear! Our versatile loops are perfect for making adorable accessories, just like this hip flower necklace. Experiment with finger-weaving and knotting to perfect your one-of-a-kind designs.

Petal Pusher (2) This necklace features a funky take on a tropical flower. We knotted together an orchid-like bloom and tied it into place. Now, that's flower power!

Beads Please (3) These loops are lovely as a pair of chunky, funky necklaces. And the look was super easy to create! No weaving, no sewing... no fuss! Just knot the loops to the appropriate length, sliding on painted wooden beads (available in the Jewelry Department) as desired.

Banner Day No sew? No problem! This adorable banner came together with loops, glue and some fusible web (used according to the manufacturer's directions). We used colorful loops, tied together, as a place to hang our sweet pennant flags. And more loops made up the letters—they're secured to the pennants with fabric glue.

↳ **Snug Rug!**

Weave your way to a snugly-wuggly rug! This colorful piece began as twenty-four basic woven squares, made with loops from our handy multicolored packs. We joined the edges with a crochet hook. Then, we looped on some fringe by simply snipping the loops open. So easy... and cute!
